

Feature Focus: **VALET PARKING For All Your Files**

The simplicity of GoldVisionPro is that it "brings you your files" when you need them, and then "puts your files away" for you when you're finished. EVERY file, in your entire company, for everything. It's just like "Valet Parking" for all your files! Users don't need to waste time trying to find their files, and don't need to worry about where and how they should be stored. Auto-naming, auto-indexing, auto-retrieving and auto-directory management are all powerful features available with GoldVisionPro.

Manage all your files with the most competitive document management solution in the market, built into the most widely-used CRM system, and directly accessed from the most popular office programs, MS Office.
